Office Action Summary		10/721,312	PERUSEK ET AL.			
		Examiner	Art Unit			
		John Fox	3753			
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status						
2a)⊠	 Responsive to communication(s) filed on <u>02 August 2006</u>. This action is FINAL. 2b) This action is non-final. Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i>, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 3753

Claims 2, 8-33 and 36-38 have been cancelled.

Claims 1, 3, 6-7, 34-35 and 39-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohmi et al, US Patent 5,983,933.

The coupling 30 of Ohmi et al fairly responds to the claims in that the rectangular portions labeled 43, 45 can be read as projections. More particularly, one can readily construct a planar surface at a 45° angle and fairly consider the corner to be a projection. See the Final Rejection of May 12, 2006. In a similar vein, a section at the same level as the bottom of the tube can be taken, resulting in a bottommost surface and a projection.

Applicant's arguments filed August 2, 2006 have been fully considered but they are not persuasive. It is not agreed that a cross section cannot be reasonably viewed as a surface. Figure 2 of the instant application is a good example of the matter. Moreover, another definition of a surface is the outer boundary of a three dimensional body. In the instant application, that body is a cubic body and the surface includes, by definition, a section through the solid body at the interface of the cubic body and the projection.

Nothing in the claims precludes the projection from depending from the entire surface.

Lastly, mechanical drafting routinely treats surfaces, much like axes, as a construct which gives a reference point or describes a spatial relationship; again, Figure 2 of the instant application is a good example.

Claims 4-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohmi et al.

Application/Control Number: 10/721,312

Art Unit: 3753

The provision of a different size or shape for one end of the coupling 30 of Ohmi et al is considered an obvious matter of design choice.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Fox whose telephone number is 571-272-4912.

The examiner can normally be reached on Patent Hoteling Program.

Application/Control Number: 10/721,312 Page 4

Art Unit: 3753

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eric Keasel can be reached on 571-272-4929. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
